

ALEXANDRIA, VA.

MONDAY, JUNE 27, 1870.

Many of the friends of Education, and of the Universities, Colleges, and Institutes of Virginia, regret much the custom introduced of late of obtruding the proceedings of burlesque clubs, societies, and associations, upon the notice of the public, and of making public exhibitions of what should be confined to the students themselves—if that sort of fun is pleasant or agreeable to them. Young men at college will have their gaieties, and those who remember what happened in their own young days, should be the last to ensure innocent sport. But there is both a "distinction and a difference" to be observed. What would be entirely unobjectionable within the walls of college, and confined to classmates, and college mates, may be quite objectionable, presented to outsiders, ladies and gentlemen; if not objectionable—at least, considered as frivolous. There is a certain dignity to be preserved by youth as well as age.

The Washington correspondent of the Baltimore Sun says:—"The U. S. has abandoned the prosecution of James H. A. Schureman, colored, whose trial some time since occupied considerable attention. He was charged with taking \$12,000 of unfinished bank notes of a Jersey City National Bank, from the vaults of the United States Treasury. The lost notes were traced to Georgia, in the possession of one Marian Harris, who testified on a former trial that she received them from Schureman. On one of four indictments found against him Schureman was convicted, but the Washington court set the verdict aside because of informality in the indictment. The prosecution was not afterwards able to obtain a verdict, and now abandon the case."

Mr. T. B. Coursey, the Republican candidate for Governor of Delaware, has written a letter in which he deprecates the use of money in conducting political campaigns. We honor his sentiments on this head. He says: "Bribery has grown to an alarming extent. It is a disgrace to any community claiming either Christian or moral principle. It ought to be abated, or republican government will soon be among the things that were. I hope that no money, from any source whatever, will be used for buying votes in the coming campaign. I do not and do not intend to do so. I would sooner be defeated than so elected." Would that all men engaged in public life would adopt and enforce this opinion.

A Congressman from North Carolina, died at Washington at the close of last week. His death was announced in the House of Representatives on Saturday, and after the customary eulogies and the adoption of resolutions, including one providing for the appointment of a committee to accompany the remains to North Carolina, the House adjourned. He was a native of Ohio.

A New Orleans paper argues that soundrels, big and little, need have no fears of trials so long as jurors there have not sufficient mental and moral capacity to understand their duties, and can be bribed by a small consideration. This is a lamentable condition of affairs. There is no doubt in this country, much "material progress"—accompanied, we fear, with much moral "deterioration."

At a meeting of the New York Workingmen's Union last week, the introduction of Chinese labor into the country was loudly denounced as a continuance of slavery, and Massachusetts men were declared slaves, deserving the punishment of death. The adopted formula, "without distinction of race or color," it seems, is only to be applied in one case.

Queen Isabella on Saturday, signed her abdication of the throne of Spain in favor of her son, Marshal Bazaine and other dignitaries were not present, but they have previously witnessed the will of the Queen, which was made before her abdication, that it might have the weight and validity of the act of a Sovereign.

We have received, from a friend in Prince William county, a specimen of the circulars sent through the country, by some unknown persons in New York, offering to sell counterfeit money. It is now a state fraud. Some time ago we published one of these circulars. We believe the New York police have been informed on the subject.

Father Hyscine is at Munich, where he holds daily conference with Canon Dollinger and the King of Bavaria, who, it is said, intends to confer on him the citizenship of Munich and a chair in the University. We thought he had gone into absolute retirement.

According to the newspaper accounts, the wheat harvest, as a general rule, will be better this year in this state, than it was expected it would be, two weeks ago. There are sections, however, in which the damage has been considerable.

The little kingdom of Belgium, of 11,382 square miles—about the size of Maryland—gives comfortable support to over 5,000,000 people, or about 500 to the square mile.

The Richmond Whig says that the bill now before the Legislature in relation to voting on stock in Railroads, &c., will pass both Houses shortly. It is to give to each share of stock in all corporations for internal improvements a vote, while heretofore the law has been that the first ten shares count ten votes, while all above ten are subjected to a scale of one vote to every four shares, the fractions being thrown off.

The Car shops of the Reading Railroad, at Reading, Pa., were destroyed by fire yesterday, with all their contents, tools, patterns, a number of cars, &c. Origin of the fire not known. Loss \$110,000. Insurance \$25,000.

The Court of Appeals met in Richmond, Saturday morning and, without transacting any business, adjourned until the first of next November. In the meantime the judges will hold court at Staunton and Wytheville.

A letter from Haymarket, Prince William county, dated June 24, says:—"Our farmers are making a better wheat crop than was anticipated by them; in fact nearly all crops are looking well here."

The report of the recall of Mr. Motley and the appointment of Secretary Fish as Minister in his place, is contradicted.

Senator Revels held a levee in Indianapolis on Thursday. He is a Senator "at large."

MOUNT VERNON.—A correspondent of the New York Express says that under a Congressional appropriation the home of Washington has been put in order, but complains that there is no provision made to guard against accidental fire. For this purpose a number of subscriptions have been made, and it is probable that they will soon be sufficient in amount to provide for a fire engine. It is proposed, if possible, to form a collection of all the relics of Gen. Washington, to be placed at Mount Vernon, thereby forming a museum of "that classic period in our history, the old war for independence, and the establishment of our National Government." Many valuable articles can be obtained from the immediate descendants of General and Mrs. Washington, if money to purchase were to be had. The clock given to him by Frederick the Great (held at \$5,000 by its present owner), the sword also, and snuff box, and numerous other articles are to be bought.

These "relics" will be scattered yet more widely each year, and future generations, instead of having the pleasure of beholding them will merely hear of them from tradition. The naked walls of Mount Vernon need pictures suitable to the era in which it was built; and a spirited and valuable likeness of Washington on his white charger before the trenches of Yorktown, painted by Rembrandt Peale, is offered by his heirs to the Association, for \$5,000.

The only up stairs chamber furnished is that occupied by General Lafayette which in this country, and that has just been done by the efforts and liberality of the Vice Regent of New Jersey.

FATIGUE COUNTY.—The match race between John H. Rixey's b. h. Mesty, and Wm. Horner's b. f. Rose, which had been twice postponed on account of foul weather, came off by appointment, last Tuesday, upon the Potomac river, a few miles below Warrenton. The race was an interesting one, and was won by Mesty, in three heats.

On last Monday, Messrs. Hunter and Noland sold at public sale a portion of "Grassland" belonging to the estate of the late Col. Samuel J. Tobbs, lying in Upper Fauquier, and estimated to contain about 500 acres, to Mr. Richard H. Rector for \$38.01 per acre.

We have received a letter from an old friend in Alexandria, putting in nomination for Congress from this district, Mr. H. O. Claughton, of that city—a man whose moral purity, mental training and fine capacity, eminently fit him for any place of public trust within the gift of the people of his native State.

Our old friend Reuben B. Hitt, has just obtained 65 pounds of wool from his little flock of seven sheep, being an average of 9.2-7 of seven. From one of his ewes he obtained a two-year's lamb, he took 15 pounds at the first shearing. The 65 pounds of wool, at market rates, should bring him \$15.25—a very handsome return, excluding lambs from seven head of sheep.—Warrenton Leader.

A QUEER WILL CASE.—George A. Alter and Catherine his wife each determined to make a will, and each intended to give to the survivor the property he or she possessed. Two wills were prepared for execution, and as was supposed were duly executed, and then placed in separate envelopes. The husband died, and on examination of the envelope containing, as was thought, his will, it was discovered that the husband had signed his wife's will. In this dilemma the wife obtained legislation, and an act of assembly was passed authorizing her to file a petition stating the facts, and upon proof of "the alleged mistake" to the satisfaction of the register's court, that tribunal is clothed with "the powers of a court of chancery," and is authorized "to reform said paper-writing," and "to have entered in the office for the register of wills in and for the city and county, the said paper-writing, which he (Geo. A. Alter) intended to execute as his last will and testament, as if the said writing had been signed by his said wife Catherine." The judge decided against the petitioner, on the ground that no law could execute a will for a dead man.—Phil Ing.

A NEW ICE MAKING MACHINE.—There comes from Germany a promise of relief from the want of ice. A certain Franz Windhausen of Brunswick, has invented a new machine for freezing water without the aid of chemicals. The process takes place in a cylinder, "where the air is first powerfully condensed, then cooled by the admission of water, and finally expanded till its pressure is about equal to that of the atmosphere." By this means, it is asserted, the very satisfactory result is obtained of lowering the temperature of the air to fifty degrees Celsius (four degrees Fahrenheit), so that when condensed in moderate quantities into a space through which the water flows, "the water is almost immediately turned into ice, of which enormous blocks may thus be obtained if desired." The invention will also, it is said, be applicable to the cooling of large apartments, such as theatres, hospitals and churches.

OFFICERS QUALIFIED.—The following officers who have received certificates of election in Richmond under the decision of the commissioners of election, were sworn in and qualified Saturday before Judge Guigon. [This is pending the decision of the contested election case now before Judge Guigon.]

Andrew Jinkins, Clerk of Hustings court; bond \$5,000.
Benjamin H. Berry, Jr., Clerk of Chancery court; bond \$10,000.
George D. Wise, Commonwealth's Attorney for Hustings court of Richmond. No bond required—merely oath of office.
Thomas U. Dudley, City Sergeant; bond \$10,000.
Henry K. Ellyson, Esq., qualified before Judge Fitzhugh as Mayor.—Rich. Whig.

NITRO GLYCERINE.—The dangerous character of this material, says the Boston Journal, was well illustrated a few years ago on the passage of a ship from Liverpool to this port. After being a short time at sea the captain discovered a box near the main hatch which excited his suspicion that its contents was the dreaded nitro glycerine, and without hesitation he immediately ordered its careful removal and threw it overboard from the stern of the ship. Upon its striking the water a terrific explosion followed, and a column of water six feet high was thrown into the air, but fortunately the vessel escaped injury.

THE CONGRESSIONAL Radical Executive Committee, of which Senator Wilson is chairman, is busily engaged in examining the field of political operations. It is conceded that great difficulties will be found in the canvass, though not so much general as local in character, and affecting the success of individual representatives and party results in some of the States. The North Carolina election comes first, occurring in August.

The family of Charles Smith, at Sharpsburg, Md., were poisoned on Saturday from eating pudding. One of the children has died, and Mrs. Smith and two more of the children are lying in a critical condition. Mr. Smith and one child were doing their own cooking, and it is supposed the poison was placed in the flour.

The Adams Express Company in Baltimore had their flag displayed at half mast on Saturday in memory of Col. John A. Bingham, who died Friday in Philadelphia, aged sixty five years. Col. B. has been for twenty years the Superintendent of the Pennsylvania division, and one of the Directors of the Company.

The French Atlantic Cable Company have relinquished for the future their monopoly of landing cable telegraphs upon the shores of France. The French shores are now accessible to all cables that may be laid between them and the United States.

The Commissioner of Indian Affairs yesterday received a telegram from the West, stating that Red Cloud yesterday left Omaha for his home. There were two thousand warriors waiting to meet him at Fort Peck and escort him to his hunting grounds.

The city of Guaymas, Mexico, was surprised and captured on the 23rd of May by a revolutionary force, which, it is said, will proceed to attack other points and endeavor to set up a Northwestern Mexican Republic.

Mr. A. B. Cornell, Surveyor of the Port of New York, has been appointed U. S. Sub-Treasurer in place of Mr. Poler, elected to the Supreme Bench of that State.

Yesterday was said to be the hottest day of the season, and our dispatches from elsewhere speak of the extreme heat prevailing throughout the country.

Secretary Boutwell directs the commencement of the payment of interest due on the first of July, 1870, on Tuesday, 28th instant, without rebate.

On the third Monday in August the fourth annual session of the National Labor Union will commence at Cincinnati.

Some of our Maryland exchanges state that there is a scarcity of farm laborers to harvest the crops.

The prohibitive rate that the new debt statement will show another decrease, but there are no positive indications what the figures will be. The decline at Havana is abating at present.

EMANCIPATION IN THE SPANISH COLONIES.—Cable dispatches say:—"The Spanish Cortes before its final adjournment passed a bill for the gradual emancipation of slaves in the Spanish colonies, differing from Senor Moret's original proposition in the following respects: All slaves over sixty, instead of 65 years of age, are immediately liberated; guardianship held by their former masters over slaves born since 1865, ceases on proof of abuse or confirmation on the part of the master, or upon the marriage of slaves; children under 14 years of age are to go with their mothers. Married couples shall not be separated. Provision will be made by supplementary legislation to such as may be made by the Cortes. The bill now left to the discretion of the Government."

STREET DECISION.—Judge Wingfield yesterday rendered his decision in the chancery suit of Russell and others vs. McDaniel and others, which has been argued during the present term of his court. The suit was brought for the purpose of holding the Directors of the Citizens' Savings Bank liable for the losses incurred by the bank growing out of its management during the war, and a decree for some sixty or seventy thousand dollars was asked. The Judge held that in the absence of any allegation or proof of fraud on the part of the Directors, they were not liable, even though they may have done acts which we now see were injudicious, but which were done in accordance with the custom of the time when committed. The plaintiff's bill was dismissed.—Lynchburg Republican.

On the 23rd instant, at the residence of the bride's father, West river, Md., by Rev. Dr. Hodge, Dr. G. ELLIZEN, of Warrenton, Va., and Miss MARY C. MURRAY, of Warrenton, Md., were united in Holy Matrimony, by Rev. H. E. Johnson, Mr. WILLIAM H. TRIPLETT to Miss HATTIE L. TEMPLEMAN, all of Fauquier.

On the same day, by Rev. H. H. WYER, HENRY LEWIS, of Santa Barbara, California, to Mrs. VIRGINIA A. PITTITT, of Fauquier.

On the 30th of May, by Rev. F. C. Tobbs, Mr. DAVID DUDLEY to Miss JENNIE C. OLIVER, all of Fauquier.

LETTER FROM RICHMOND.

[Correspondence of the Alexandria Gazette.]

RICHMOND, June 25.—The weather is exceedingly warm. The mercury in the thermometer indicating 87° and 88° in shady places.

In the Senate, to day, the joint resolution in relation to the establishment in Virginia, of a branch of the National Asylum for disabled soldiers, was reported.

The following important bills were reported from committees: Senate bill imposing taxes for the support of government and free schools and to pay the interest on the public debt. (The committee fix the tax at 60 cts. on the \$100, but it is thought that the Senate will reduce the amount to 50 cts. or even less.) House bill to amend and to enact an act to encourage immigrants and for their protection; Senate bill to prescribe the duties and fixing the compensation of officers in cities and towns of over 5,000 inhabitants.

The following bills had a third reading and were passed: To incorporate the Staunton female seminary; to incorporate the Loudoun cemetery association; to amend an act to incorporate the Leesburg and Albion turnpike company; to amend and to enact chapter of the town of Orange; to protect the crystal beds of the Commonwealth, (with amendments); to authorize the payment of certain grants at the penitentiary; to amend the charter of the Virginia international land and loan company; authorizing the Governor to exchange Virginia's quota of arms, when obtained, for Robert's breech-loading guns; to regulate the settlement of fiduciary accounts and for the appointment of commissioners in place of, with the substitute proposed by the House.

The Senate bill to regulate the sales and prevent the sacrifice of real estate, as amended by the House, was discussed.

In the House of Delegates, Mr. Johnston, of Alexandria, introduced a bill to amend the act of May 6, 1870, prescribing the times for holding the corporation courts.

The House bill to incorporate the Richmond and Potomac Railroad Company, was amended and passed. The object of the bill is to incorporate a company with authority to construct and operate a railroad, with new iron tracks, from the city of Richmond to the Potomac river, at the city of King George, to the Potomac river, and to the city of Alexandria, and to the city of Washington, and to the city of Baltimore, and to the city of New York, and to the city of Philadelphia, and to the city of New
